

FEDERAL CAPABILITY STATEMENT

Technology. Infrastructure. Operational Delivery.

Systems integration, ICT modernization, technical program management and implementation support for complex operating environments.

COMPANY SNAPSHOT

Legal entity: EvolutionsBeratung USA LLC

Headquarters: 611 South DuPont Highway, Suite 102, Dover, DE 19901

Website: evolutionsberatung.com

Federal contact: federal@evolutionsberatung.com (pending activation)

CAGE CODE**25PJ5****UNIQUE ENTITY ID****CVHSQEQLRX85****OUR FEDERAL VALUE PROPOSITION**

EB brings a combination of technology integration, mission-operational insight and cross-border implementation advisory. Its leadership experience includes enterprise platforms and ICT operations supporting geographically distributed United Nations environments. EB offers practical support as a prime contractor, subcontractor or teaming partner, subject to each procurement's requirements.

COMPANY REGISTRATION SAM.gov Active status reported by EB. Verify current record and NAICS entries before submission.

01 / WHAT WE DELIVER

Core Service Capabilities

Integrated advisory and delivery support from assessment through operational handover.

01 IT MODERNIZATION & SYSTEMS INTEGRATION

Enterprise applications, Microsoft 365 / SharePoint environments, platform interoperability, requirements analysis, workflow digitization and technical implementation coordination.

02 TECHNICAL PROGRAM MANAGEMENT

Project governance, PMO support, schedule and milestone control, stakeholder coordination, vendor oversight, reporting and delivery-risk management.

03 ICT INFRASTRUCTURE & FIELD OPERATIONS

Distributed infrastructure planning, service operations, communications environments, technical logistics, site implementation and operational continuity.

04 CYBERSECURITY & OPERATIONAL RESILIENCE

Security-aware architecture and operating practices, access and data governance, business continuity planning and coordination of specialist security resources.

05 INFRASTRUCTURE & IMPLEMENTATION ADVISORY

Technical feasibility support, procurement coordination, execution planning, deployment oversight and complex multi-stakeholder implementation.

02 / HOW WE EXECUTE

Delivery Model

Structured execution designed to reduce ambiguity, coordinate specialists and preserve operational ownership.

- 1 DISCOVER**
Confirm stakeholder priorities, delivery constraints, operating environment and measurable requirements.
- 2 DESIGN**
Develop delivery roadmap, architecture assumptions, governance, risk controls and work packages.
- 3 IMPLEMENT**
Coordinate vendors and teams, manage milestones, track acceptance criteria and control change.
- 4 TRANSFER & SUSTAIN**
Provide knowledge transfer, standard operating procedures, documentation and transition planning.

ENGAGEMENT OPTIONS

Prime contracting: scoped delivery where qualifications and capacity fit.

Subcontracting: specialized technical work packages.

Teaming: complementary capabilities with established federal primes.

03 / LEADERSHIP EXPERIENCE

Relevant Past Performance

Representative experience of EB leadership and personnel. These examples are not represented as contracts awarded to EB USA LLC.

01 UN GLOBAL SERVICE CENTRE | VALENCIA**Enterprise digital services and platform governance**

Leadership of a five-person team supporting SharePoint / Microsoft 365, Moodle and Drupal platform delivery in a UN global service environment. Reported reach included more than 30 field missions.

RELEVANCE Enterprise collaboration | Distributed users | Agile/iterative delivery | Governance

02 UN PEACE OPERATIONS | LIBERIA & CENTRAL AFRICAN REPUBLIC**Mission-critical ICT operations**

Leadership and ICT operational experience in field mission environments, including systems and infrastructure supporting large multinational workforces. Prior project accounts indicate mission populations of approximately 15,000 personnel each.

RELEVANCE Operational continuity | Distributed infrastructure | Field support | Stakeholder management

03 INTERNATIONAL DIGITAL PLATFORM INITIATIVE**Trade and operational workflow digitization**

Leadership experience associated with a commodity trade-governance platform initiative active since 2020, involving workflow coordination, multi-party information exchange and international operating requirements.

RELEVANCE Requirements definition | Process digitization | International coordination

EVIDENCE NOTE Client references, performance dates, contract identifiers and attributable results should be validated before these examples are used as formal corporate past-performance submissions.

04 / WHY EB

Operating Advantages

A commercially practical team for programs requiring technical depth and multi-location execution.

◆ **MISSION-ORIENTED EXPERIENCE**

Experience with operationally critical ICT services in field and headquarters-linked environments.

◆ **CROSS-BORDER DELIVERY CONTEXT**

Familiarity with complex stakeholder structures, logistics constraints and internationally distributed projects.

◆ **TECHNOLOGY + PROGRAM GOVERNANCE**

Combines system-level thinking with schedules, accountabilities, risk management and implementation oversight.

◆ **FLEXIBLE TEAMING MODEL**

Can support prime contractor delivery teams and bring in specialist resources against defined scopes.

◆ **FOCUS ON TRANSFERABLE OUTCOMES**

Emphasizes documentation, staff enablement, maintainability and clear operational handover.

OUR ROLE: make technical delivery more governable, more transparent and more executable.

05 / WORK WITH EB
